

headspace Schools & Communities mental health education program

Our program delivers free mental health education workshops to secondary school communities across Australia.

Our student workshops aim to increase mental health literacy, reduce stigma, and build the capacity of young people to understand their own wellbeing needs, support their peers and explore pathways for help-seeking. We also offer Parent and Carer workshops alongside the student workshops.

Workshops are interactive, strength-based, evidence-informed and timed to fit a standard school lesson.

Workshops can be facilitated onsite and/or online.
